

## BEVA Trust Award for Austrian Vet

<http://www.mrcvs.co.uk/en/news-story.php?id=6417>

BEVA Trust Award for Austrian Vet

New Award goes to Austrian Animal Transport Inspector.

Austrian Vet Dr Alexander Rabitsch has become the first recipient of the BEVA Trust / FVE Equine Transport Enforcement Award in recognition of his outstanding efforts in improving enforcement of current transport regulation.

Dr Rabitsch is an animal transport inspector in Carinthia in the southern Bundesland of Austria, where the main motorway from Northern and Central Europe passes through to Italy as well as to Slovenia and the Balkan countries. It is the main route for horses sourced for slaughter travelling from Eastern Europe to Italy.

For the past 13 years Dr Rabitsch has carried out random checks on transporters of live animals to assess compliance with the current Regulation (EC) 1/2005. He works in cooperation with the Bundespolizei (Federal Police), taking the necessary actions required to safeguard the welfare of the animals, supervising the unloading and the care of the animals in case of emergencies, and reporting to the courts.

Dr Rabitsch has also drawn on his considerable experience to lobby the European Parliament for the improvement of the Regulation governing the live transport industry. As author of a number of animal transport handbooks and checklists for transport professionals, he has made significant contribution to the training and education of those involved with the transport of live animals, such as farmers, drivers and vets.

BEVA Trust spokesperson, Dr Madeleine Campbell, said: "Alexander Rabitsch's outstanding work to implement the existing Regulation governing the long-distance transport of horses makes him a very worthy recipient of the first BEVA Trust / FVE Equine Transport Enforcement Award. His special effort in communicating his experiences to raise consumer and politician awareness of the appalling, non-compliant conditions in which many equids and other animals are being transported is particularly commendable. Furthermore his ideas and tireless endeavour to further develop the current Regulation promise to help to improve conditions for transported horses and other animals in the future."

The new award will be annual, and each recipient wins €1000.

**Posted:** Monday 12th December, 2011. 15:36:02

Dr Alexander Rabitsch, a practising vet in Austria, has become the first recipient of the BEVA Trust / FVE Equine Transport Enforcement Award. The annual Award was introduced by the BEVA Trust at the end of last year in recognition of the individual or group working in the field, doing the most to improve enforcement of the current transport Regulation. Each recipient wins 1000.

Dr Rabitsch is an animal transport inspector in Carinthia in the southern Bundesland of Austria, where the main motorway from Northern and Central Europe passes through to Italy as well as to Slovenia and the Balkan countries and is the main route for horses sourced for slaughter travelling from Eastern Europe to Italy.

For the past 13 years Dr Rabitsch has carried out random checks on transporters of live animals to assess compliance with the current Regulation (EC) 1/2005. He works in cooperation with the Federal Police, taking the necessary actions required to safeguard the welfare of the animals; supervising the unloading and the care of the animals in case of emergencies, reporting to the court and notifying the Austrian competent ministry.

As an advisor to the competent ministry in Austria, Dr Rabitsch has drawn on his considerable experience to lobby the European Parliament for the improvement of the Regulation governing the live transport industry. As author of a number of animal transport handbooks and checklists for transport professionals he has made significant contribution to the training and education of those involved with the transport of live animals, such as farmers, drivers and vets. He has also spoken at numerous conferences and workshops throughout Europe from Germany, Finland, The Netherlands and Italy to Turkey, Slovenia, Serbia, Lithuania, Hungary and Montenegro.

BEVA Trust spokesperson, Dr Madeleine Campbell, said: Alexander Rabitsch's outstanding work to implement the existing Regulation governing the long-distance transport of horses makes him a very worthy recipient of the first BEVA Trust / FVE Equine Transport Enforcement Award. His special effort in communicating his experiences to raise consumer and politician awareness of the appalling, non-compliant conditions in which many equids and other animals are being transported is particularly commendable. Furthermore his ideas and tireless endeavour to further develop the current Regulation promise to help to improve

conditions for transported horses and other animals in the future.

The BEVA Trust Equine Transport Enforcement Award was announced at the FVE General Assembly, held in Brussels on 19 November 2011. It was attended by representatives from 40 nations, with the intention that the veterinary profession should take a leading role to help enforce the current Regulation governing the long-distance transport of horses, in order for equine welfare standards to be improved.

Nominations for the annual BEVA Trust Equine Transport Enforcement Award 2012 are open and can be made via the FVE and the BEVA Trust. The award will be judged by the FVE Working Group on Transport. The programme, abstracts and presentations from the Equine transport Forum 2010 can be found at:

**Vet's efforts to help trucked horses recognised**

December 13, 2011

Austrian-based vet Alexander Rabitsch has been recognised for his work in ensuring the enforcement of regulations around horses being transported to slaughter in Europe.

## BEVA Trust Award for Austrian Vet

Rabitsch has become the first recipient of the Europe Equine Transport Enforcement Award from the British Equine Veterinary Association Trust and Federation of Veterinarians.

The annual award was introduced by the BEVA Trust at the end of last year in recognition of the individual or group working in the field, doing the most to improve enforcement of current transport regulations.

Each recipient wins €1000.

Rabitsch is an animal transport inspector in Carinthia in the southern Bundesland of Austria, where the main motorway from northern and central Europe passes through to Italy as well as to Slovenia and the Balkan countries and is the main route for horses sourced for slaughter travelling from Eastern Europe to Italy.

For the past 13 years, Rabitsch has carried out random checks on transporters of live animals to assess compliance with the current Regulation (EC) 1/2005.

He works in co-operation with the federal police, taking the necessary actions required to safeguard the welfare of the animals; supervising the unloading and the care of the animals in case of emergencies, reporting to the court and notifying the Austrian ministry responsible for the area.

As an adviser to the ministry, Dr Rabitsch has drawn on his considerable experience to lobby the European Parliament for the improvement of regulations governing the live transport industry.

As author of a number of animal transport handbooks and checklists for transport professionals he has made significant contribution to the training and education of those involved with the transport of live animals, such as farmers, drivers and vets. He has also spoken at numerous conferences and workshops throughout Europe from Germany, Finland, The Netherlands and Italy to Turkey, Slovenia, Serbia, Lithuania, Hungary and Montenegro.

BEVA Trust spokesperson, Dr Madeleine Campbell, said his outstanding work made him a very worthy recipient of the award.

"His special effort in communicating his experiences to raise consumer and politician awareness of the appalling, non-compliant conditions in which many equids and other animals are being transported is particularly commendable.

"Furthermore, his ideas and tireless endeavour to further develop the current Regulation promise to help to improve conditions for transported horses and other animals in the future."

The BEVA Trust Equine Transport Enforcement Award was announced at the FVE General Assembly, held in Brussels on 19 November 2011. It was attended by representatives from 40 nations, with the intention that the veterinary profession should take a leading role to help enforce current rules governing the long-distance transport of horses, in order for equine welfare standards to be improved.
